Climaxed by our great win over Orting the 1965 football season was very successful. The season began with an air of uncertainty with only seven lettermen returning. However, the uncertainty was soon abandoned as we won our first four games. Then came a resounding defeat by Charles Wright, and a narrow loss to O'Dea on Homecoming. In the last game of the season, we defeated Orting which was ranked first in the state in Class B.

1986

Place: Pioneer Square
Time: Noon, June 11, 1986

Setting: A wealthy millionaire, while feeding the pigeons throws his half-smoked cigar onto the sidewalk and, before a bum can pick it up, crushes it with his heel. The millionaire, however, seems shaken as he views the bum and remarks:

"Say aren't you that Montgomery fellow that I used to go to high school with?"

"Yes, I think that I am. I graduated from The Lakeside school in 1966 and I think that I remember you. You're Tym Park aren't you?"

"That's quite right but how do you explain the condition that you are in?"

"It's a long and embarrasing story that I will not bother you with. It is obvious that you have done quite well yourself though."

"Yes I have done quite well and while we are on the subject, what has happened to those who graduated with us?"

"You will be thrilled to know that the long awaited event has finally occured. Osborne gave birth just recently to a nine pound, six ounce bouncing baby girl."

"Well you seem to get all the news first. Can you tell me the fates of any other classmates?"

"Vinnedge gave up college after one year and retired to the "Bend" where he took up his lifes ambition — building boxes. However, with the box factory going under, Bob strangled himself with a piece of rope. Oh, and of course you remember Jensen who never returned after his trip to San Francisco. Well it has been remarked that the leading character in such movies as "Secret Fishmonger"and John Jay's "Sliding Skies" resembles J. D. greatly. Abel has become a critic for Time magazine which suits him for if you will remember correctly he was the one who always complained about anything written about him. Coleman has also taken up a career much suited to him. He has been hired by N.A.S.A.R. to replace an obsolete computer. Brigham, who was beaten out by Coleman for the job at N.A.S.A.R., took up another job at the same place. Brigham is manager in charge of custodial affairs."

"I see that at least your memory hasn't failed you but let me add what I know to this already interesting story. I, being up on the sports world, will tell you what has happened to those who went on into sports. Barrick has retired to the island of Crete after many years of managing the Yale swim team successfully. There he met the beautiful Bouboulina but the romance was ended abruptly when Bouboulina sat on poor Reid's lap and crushed him to death. Munger gave up the P.G.A. quickly and took a job more suited to him. He is now with the F.B.I. and specializes in shadowing people. Stevens gave up the Green Bay Packers when he couldn't hack the run from the locker room to the field. He now manufactures men's short sleeve transparent shirts. It is rumored that Brinkley while on a solo bike riding trip around the world became lost and because of his reticent attitude was never able to find out where he was or is.

"Yes our class didn't turn out too athletic. Burns enjoyed a brief stay—seven minutes to be exact—with the Boston Celtics but then turned to politics effecting such reforms as the Burns' Amendment. The great skier of our class, Barrett, has returned to Norway where he is quickly going down hill and I am not only talking about ski races. Alexander competed in a little publicized national beard growing contest and did well. He has now returned to Montana to sing along with the coyotes. And you know Smith the one that was supposed to be such an athlete is now in a mental ward suffering from a severe persecution complex. Of course he always felt he was being picked on even by himself.

But in spite of this some members of our class have made definite contributions to society. Rollins has become an actor of considerable esteem due to his part in the play "Lord of the Flies". You are now able to buy Hemphill at your favorite grocery store for after twenty years of smoking he has sold himself to the American Tobacco Co. and is available in either plain or filter tip. Huff, with his band, Buffalo and the Chips, is contributing to the music world after his speech improvement school failed. Hedderly-Smith has just marketed a new survival kit in which you live partially off the land but mainly off yourself. Jones has set up a balloon factory with his wife S.Y. who knows more about balloons than Dave. Kotkins has solved the garbage problem for Seattle when his mouth was reversed so that it inhaled garbage instead of expelling it. Mates, after three years of reading, has gone into seclusion somewhere and is supposedly publishing a new dictionary. Westergaard, after graduating from Edison Tech. has set up a hot-rod shop somewhere and specializes in beefiing up engines through injecting. And Waknitz has found a job where he can put his special skills to work. He is now building quite formidable bath tub rings for Ajax cleanser."

"Well to hear you talk our class has been the most successful ever but weren't there any failures in it besides you?" "Yes as a matter of fact there were. I run into Klein and vanAmerogen quite often. They deviated from the straight and narrow path when Klein talked Van into publishing a Magazine everyone would read. Unfortunately the laws concerning pornographic material clashed with this publication and both of them were thrown in jail when they were caught with the "Goods" on them. Of course no one has heard much about Brewer who was last seen fading quickly into the horizon with the State Patrol in pursuit. Weyand is now dead. He was sent to Vietnam where he contracted spastifedalcatineria, an incurable disease. Foster has been forced to join the other side after being charred when his robe caught fire at one of his club meetings. Cooper (Scott that is) now lives a sedate life at 1600½ Penn. Ave. after being thrown out of a civil rights movement for running down Martin Luther King with his motorcycle. As usual nothing has been heard from the other Cooper. Kane has settled down to a life of dodging F.B.I. agents and starting free anything movements. Powell has retired to a life of memorizing little known and completely useless facts after publishing his successful book *Puns for Pun and Profit*."

"His good deeds and his wickedness. Whate'er a mortal does while here; 'Tis this that he can call his own. This with him take as he goes hence. This is what follows after him. And like a shadow ne'er departs." A Zen poem

As we the class of 1966, ventured forth in search of happiness, independence and truth we will all strive to attain the highest good and the most penetrating
enlightment that is to be found within us. Our world is within us to discover and explore. Too many times we want what we don't have instead of wanting what we do have — our minds. Our Way is not easy but we need not dismay. Our Way is long but we need not save ourselves. To see the moon and a tree as the moon and
a tree but not being different is our goal. Through the dualist thought into the
Void we must travel. On the back of our koal we must journey into the realm of absolute awareness. Our karma must be well managed in order to attain the highest
of heavens. To our goal we bind ourselves knowing that our bindings will make us
free. A student of Zen.
